Terms and Conditions

- The above schedule and fees only apply to designated obstetricians.
- The designated obstetricians are allocated. Specific specialists cannot be selected.
- The antenatal check includes consultation, weight, blood pressure, urine check and a basic ultrasound scan, as well as items listed. Additional consultations, imaging, laboratory tests, medications and supplements that are ordered by the obstetricians will be charged additionally.
- Appointments or emergency consultations held beyond this schedule will be charged additionally.
- Additional costs will be incurred for a structural scan for a multiple pregnancy.
- You are required to settle the payment of each visit, including additional tests and prescriptions at each appointment.
- Optional items can be chosen at an extra cost.
- No direct billing arrangements with insurers or company schemes will be administered through this antenatal programme, you may need to pay and claim.
