

FAQ

Matilda Mosaic and Digital Matilda Babies Map

1. Is it a baby picture you are looking for or as they are now?

You can choose your favourite picture at any age.

2. Is there an age limitation?

No, anyone who was born at Matilda is welcome to join us.

3. Is there any deadline?

Not at the moment. We plan to work on the digital Matilda babies map project first. Thanks to everyone, we have received quite a few pictures but need hundreds to create the Matilda Mosaic, so please do help spread the word.

4. How do I know when the digital Matilda babies map is ready and what about the mosaic?

We will share the link of the digital Matilda babies map on our social media and what's new on our website www.matilda.org when it's available.

The Matilda mosaic will be proudly displayed at our Maternity Department and if you call and arrange a visit you will be able to see it in person. Of course, we will also share the mosaic online once it's ready.

5. If I scan an old photo, that will not get to the resolution as stated in the poster?

The photo guideline is for your reference. Please try to scan the picture as high resolution as possible. Your submitted photo should fit in the world map without any problem. For the mosaic project, horizontal picture with around 500K will fit the mosaic better, you can email us the picture at design@matilda.org, we'll check to see if the picture works.

6. Why do you need a horizontal picture, I only have a vertical picture?

A horizontal picture will fit into the mosaic better. If you send a vertical picture we may need to edit your picture a bit, or request you to send us a better one that fits with the requirements.
